Projects

DATA ENTRY: Portal Multimedia Designer | Spring 2023 [URL](#)

A reconstruction of the 1986 game *Portal* into a virtual environment with reimagined story and visual design.

- Designed color palettes as part of a design team
- Selected fonts for in-game text and main title in a design team
- Designed graphic images for website and textures for in-game models

The Hero With No Fear Programmer and Designer | Fall 2022 [URL](#)

A desktop-only website built around narrative excerpts through parallax scrolling.

- Designed and coded parallax scrolling effects
- Coded HTML5 and CSS3
- Integrated public domain images and license-free music to achieve the desired aesthetic

Raytheon Logo Redesign Graphic Designer | Fall 2022 [URL](#)

Redesign of logo for Raytheon Technologies in a military aesthetic.

- Made three designs with differing color schemes and shapes
- Refined the final design in shape, detail, and in smaller variants such as a favicon

Meatsauce Spaghetti Recipe Programmer and Designer | Fall 2022 [URL](#)

Designed a responsive webpage of a recipe using CSS grid.

- Coded in HTML5
- Designed using CSS3
- Designed to be responsive for desktop, tablet, and mobile
